

# 47<sup>th</sup> Inner Ear Biology Workshop

Prague, Czech Republic  
29 August – 1 September 2010

The **Inner Ear Biology Workshop** is organized annually by academic centers in Europe with the objective of a free exchange of scientific accomplishments in the area of inner ear biology and related auditory structures. Interested scientists from all over the world are welcome to attend the Workshop and present their results as oral or poster presentations. For more general information about this and previous workshops visit: <http://ieb.unife.it>.

---

In 2010 the Workshop will be organized in **Prague, Czech Republic**, starting with a get-together on Sunday, **August 29** and ending on Wednesday, **September 1**.

The venue will be **hotel Pyramida** near the Prague Castle.

The Organizing Committee and the National Advisory Board will be pleased with your attendance.

---
