Introduction. T. Etrych, J. Kotek

iii

Reviews

Peptide-targeted polymer cancerostatics. E. Böhmová, R. Pola (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S153**

Supramolecular structures and self-association processes in polymer systems. M. Hrubý, S. K. Filippov, P. Štěpánek (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S165**

High-molecular-weight HPMA-based polymer drug carriers for delivery to tumor. L. Kostka, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S179**

Seven years of radionuclide laboratory at IMC – important achievements. M. Hrubý, J. Kučka, J. Pánek, P. Štěpánek (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S191**

Macromolecular systems for vaccine delivery. G. Mužíková, R. Laga (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S203**

Original Articles

Intracellular fate of polymer therapeutics investigated by fluorescence lifetime imaging and fluorescence pattern analysis. J. Panek, E. Koziolova, P. Stepanek, T. Etrych, O. Janouskova (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S217**

The pH-dependent and enzymatic release of cytarabine from hydrophilic polymer conjugates. R. Pola, O. Janoušková, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S225**

HPMA copolymer-based polymer conjugates for the delivery and controlled release of retinoids. O. Lidický, M. Šírová, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic, Inst. Microbiol. Czech Acad. Sci., Prague, Czech Republic*) **S233**

Carbohydrate-modified magnetic nanoparticles for radical scavenging. M. Moskvina, D. Horák (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S243**

Protein interactions with quaternized chitosan/heparin multilayers. M. Kumorek, D. Kubies, T. Riedel (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S253**

Fibrin nanostructures for biomedical applications. Z. Riedelová-Reicheltoová, E. Brynda, T. Riedel (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S263**
