

Contents

Editorial. T. Etrych, J. Kotek **S265**

Reviews

Cell-penetrating peptides: a useful tool for the delivery of various cargoes into cells. E. Böhmová, D. Machová, M. Pechar, R. Pola, K. Venclíková, O. Janoušková, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S267**

Polymer-drug conjugates in inflammation treatment. E. Koziolová, K. Venclíková, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S281**

Drug carriers with star polymer structures. L. Kotrchová, L. Kostka, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S293**

Polymeric nanogels as drug delivery systems. J. Kousalová, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S305**

Alginate matrices for protein delivery – a short review. E. Wawrzyńska, D. Kubies (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S319**

Synthetic polymer scaffolds for soft tissue engineering. O. Janoušková (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S335**

Original Articles

Theoretical investigations into the variability of the ^{15}N solid-state NMR parameters within an antimicrobial peptide ampullosporin A. J. Czernek, J. Brus (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S349**

Synthesis of water-soluble star polymers based on cyclodextrins. L. Kotrchová, T. Etrych (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic*) **S357**

SPR biosensor for quantification of fetuin-A as a promising multibiomarker. Z. Riedelová, P. Májek, K. Pečánková, J. Kučerová, F. Surman, A. De Los Pereira, T. Riedel (*Inst. Macromol. Chem. Czech Acad. Sci., Prague, Czech Republic, Inst. Hematol. Blood Transf., Prague, Czech Republic*) **S367**
