

**1ST CENTRAL-EAST EUROPEAN LABORATORY
ANIMAL SCIENCE CONGRESS**

30. 5. – 1. 6. 2023, Cubex Centre Prague

Proceedings of the 1st Central-East European Laboratory Animal Science Congress

*May 30 – June 1, 2023
Prague, Czech Republic*

The 1st Central-East European Laboratory Animal Science Congress (CELASC) was held in the CUBEX Centre Prague, Czech Republic, on 30th May – 1st June, 2023.

The congress was organized by Central-East European FELASA member associations: ARSAL (Romania), Balt-LASA (Baltic States), CLASA (Czech Republic), CroLASA (Croatia), GALAS (Georgia), HLASA (Hungary), HSBLAS (Greece), ILAF (Israel), and PolLASA (Poland).

CELASC goal was to create a meeting that would reflect our local laboratory animal science (LAS) needs in Europe and beyond, enhance the culture of care in our national research communities and facilitate the continuing education of our members.

CELASC also represented our common interests in the furtherance of all aspects of LAS and advocated responsible scientific conduct with animals in the life sciences with particular emphasis on ensuring animal welfare.

More than 320 scientists, veterinary experts, exhibitors, representatives of biomedical research organizations, universities and animal welfare authorities from 31 countries participated in the meeting.

Abstracts are presented in the alphabetical order of the first author names and are printed without editing in the submitted form. The Editorial Office of Physiological Research disclaims any responsibility for errors that may have been made in abstracts submitted by the authors.
